# 1. EU CSR Strategy 2011-2014

## 9 Priority areas and 30 Action Proposals:

1. Visibility & good practice
2. Trust in business
3. Self and co-regulation
4. Public Procurement
5. Responsible consumption
6. Responsible investment
7. Transparency
8. CSR in Education, Training and Research
9. Aligning EU & global approaches (12 action proposals):
  1. Request for and monitor commitment
  2. Business & Human Rights
  3. Inclusive growth in 3<sup>rd</sup> countries

## 2.2 EC Public Consultation on the EU CSR strategy 2011-2014 Results (1)

- 83% EC to continue to engage in CSR;
  - 2/3 found the impact of policies useful;
  - For 80% CSR impacts EU medium-/long-term competitiveness and its sustainability;
  - The Commission should focus on three priorities for the future:
    - (1) working at the international level;**
    - (2) raising awareness;**
    - (3) improving transparency measures**
- 

## 2.2 EC Public Consultation on the EU CSR strategy 2011-2014 Results (2)

### **Stakeholders believe CSR is important for companies:**

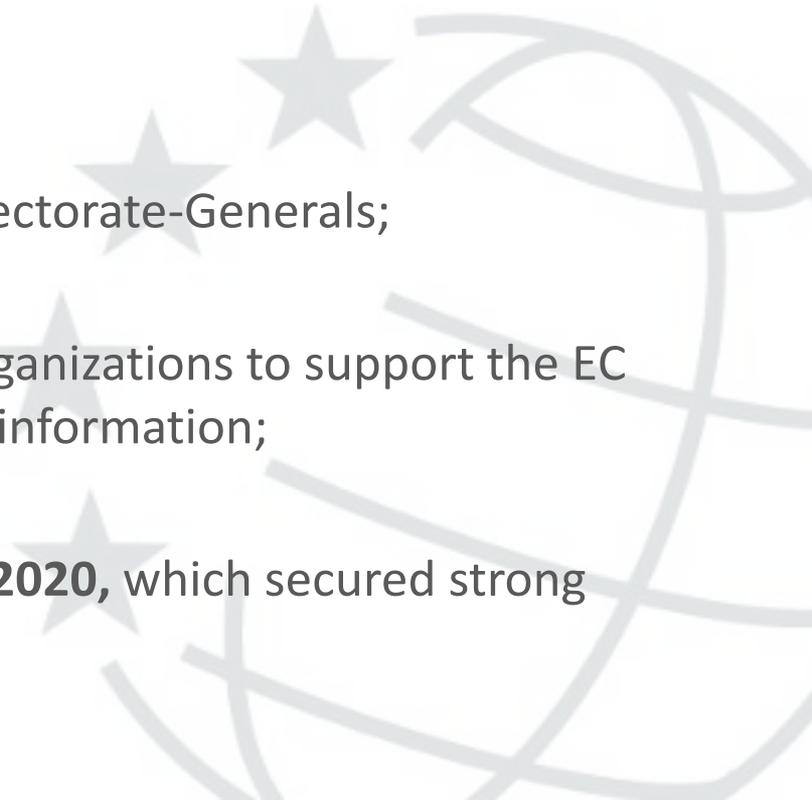

- **Develop long term strategy;**
- **Increase innovation** – new products and services, increased diversity in workforce to identify new social needs;
- **Reduce long-term costs** - better anticipating and managing environmental and societal risks;
- **Company image and loyalty** - consumers' confidence and trust + social license to operate.

### **Stakeholders believe CSR is important for society:**

- **Empower** all stakeholders and make society co-responsible
- **Ensure** society's survival
  - CSR forces long term thinking towards inclusive economic growth
  - CSR as driver of job creation and skills development
  - CSR to reduce inequalities and improving living standards
- **Create a virtuous cycle** – from supply of sustainable products towards sustainable consumption

## 2.3 CSR Europe's overall assessment (1)

### Key success factors identified by CSR Europe:

- A clear definition of CSR;
  - A broad Agenda for Action;
  - Shared responsibility across various EC Directorate-Generals;
  - Strong consensus and leadership among organizations to support the EC directive on the disclosure of non-financial information;
  - CSR Europe's flagship initiative, **Enterprise 2020**, which secured strong business participation and visibility.
- 

## 2.3 CSR Europe's overall assessment (2)

### Current shortcomings:

- **Insufficient focus on workplace and employability** (skills, youth, demographic change) as well as on social innovation of products and services;
- No clear direction on **how to leverage on the “social innovation” dimension of CSR** as a way to create new products, services and business models
- Unsuccessful implementation of actions in relation to **enhancing market reward** in public procurement and investment;
- **Integration of CSR into education, training and research**
